Seatninja Welcomes Jamie Bueman as Vice President of Sales

Bueman's Prior Experience at Upserve, Reserve, and OpenTable Provides Expertise for Seatninja's 2019 Expansion

SACRAMENTO, CA, January 9, 2019 — Seatninja is proud to welcome Jamie Bueman as the company's Vice President of Sales. Bueman will be responsible for driving revenue, developing new business relationships and promoting our front of house restaurant management platform.

"I am thrilled to be part of the Seatninja team," Bueman says. "My entire career has been spent in the emerging technology industry and I look forward to using that experience to help Seatninja with their exciting growth plans."

In her role prior to joining Seatninja, Bueman focused on building strategic revenue generating partnerships at Upserve, developers of a technology platform used by over 10,000 restaurants. Mike Reiner, CEO of Seatninja, said "We're very excited to have Jamie on board. Her depth of experience and knowledge will complement our growing team of seasoned executives."

Bueman added "I'm excited about what Seatninja is bringing to the industry. With the fragmented reservation space and the growth of delivery, restaurants need our agnostic software platform to help organize their front of the house clutter."

Seatninja is a restaurant management platform that provides powerful operational and customer data, empowers hosts to manage their front of house more efficiently, and creates better experiences for customers.
